

CLASSIFIED

CLASSIFIED is a company active in the development and production of drivetrain technology for sports bicycles (race, gravel, TT and MTB) and E-bikes. CLASSIFIED has broad expertise in drivetrain technology and creates state-of-the-art innovative products. CLASSIFIED focuses on the complete development of its new products: as from market and patent research, through proof of concepts and prototypes, up to series production.

CLASSIFIED has developed a revolutionary drivetrain product for the sports bicycle industry, in particular for the gravel road & mountainbike segment, and is looking to reinforce its team.

CLASSIFIED offers you the unique opportunity to be closely involved in the launch of its new product as well as the development of its other new products. And it is a one-of-a-kind opportunity to exploit and/or further develop your entrepreneurship in doing so. You will engage in a fast growing team with a dynamic environment and experienced team members.

Drivetrain System Engineer – location Turnhout (BE)

Your function:

As a Drivetrain System Engineer you will be responsible for the system development of new bicycle drivetrain products. You will manage the requirements, system design and the validation of the complete mechatronical system and the sub-systems. You will technically lead a team of designers and make design decisions together with the team in order to reach the project goals and timeline. You have strong analytical skills and good experience in drivetrain system design and like to achieve goals together with the team.

Your profile:

- You have a degree and relevant experience (at least 8 years) in mechatronic / system engineering
- You have strong analytical skills and experience with motion systems, preferably drivetrain systems
- You have experience with system requirements, design decisions and validation processes
- You are very hands on and able to work autonomously
- You are able to report efficiently to the team and to the management, as well as to third parties
- You are fluent in English – it is not required to have Dutch as a mother tongue

Personal characteristics:

- You are a team player and have strong communication and documentation skills
- You are keen on taking up the challenge to bring a new product to the market
- You are creative, innovative and have a problem-solving approach and you enjoy a scale up mentality
- You are positive, thorough, accurate, result-oriented and have an eye for detail and quality
- Being a cyclist is definitely a pro, but not a must!

What do we offer?

- A challenging position in a young, dynamic, company in a highly evolving market
- Being able to work on a product that will revolutionize the sports bicycle industry
- A professional team of highly motivated people in a flexible environment
- A flat organization with a start-up culture and essential communication lines
- Competitive working conditions and compensation

We are looking for a permanent team member: we invest in our collaborators and wish to establish a long-term relationship.

Are you interested?

Send your application, together with your CV to mathias.plouvier@classified-cycling.cc
