

# CLASSIFIED

**CLASSIFIED** is a company active in the development and production of drivetrain technology for sports bicycles (race, gravel, TT and MTB) and E-bikes. CLASSIFIED has broad expertise in drivetrain technology and creates state-of-the-art innovative products. CLASSIFIED focuses on the complete development of its new products: as from market and patent research, through proof of concepts and prototypes, up to series production.

CLASSIFIED has developed a revolutionary drivetrain product for the sports bicycle industry, in particular for the gravel road & mountainbike segment, and is looking to reinforce its team.

CLASSIFIED offers you the unique opportunity to be closely involved in the launch of its new product as well as the development of its other new products. And it is a one-of-a-kind opportunity to exploit and/or further develop your entrepreneurship in doing so. You will engage in a fast growing team with a dynamic environment and experienced team members.

## Production Design Engineer – Turnhout (BE)

### Your function:

As a Production Design Engineer you will be responsible for the production design release of newly developed and in house assembled drivetrain systems. You define, roll out and follow up design release processes together with the design and test-engineers. You take the lead in 8D problem solving activities and organise all activities needed for design release together with designers and suppliers. Your electro-mechanical background and hands on mentality allows you to assist your colleagues in various challenges and projects.

### Your profile:

- You have experience in design and validation of electro-mechanical assemblies
- You take the lead in production release processes and coordinate all related activities
- You analyze and report the status of the design for production and plan new activities
- You like to challenge the design and manufacturing and make suggestions for improvement
- You are hands on and are able to work autonomously
- You are fluent in English – it is not required to have Dutch as a mother tongue

### Personal characteristics:

- You are a team player
- You are organised and well documented
- You are keen on taking up the challenge to bring a new product to the market
- You are creative, innovative and have a problem-solving approach and you enjoy a scale up mentality
- You are positive, thorough, accurate, result-oriented and have an eye for detail and quality
- Being a cyclist is definitely a pro, but not a must!

### What do we offer?

- A challenging position in a young, dynamic, company in a highly evolving market
- Being able to work on a product that will revolutionize the sports bicycle industry
- A professional team of highly motivated people in a flexible environment
- A flat organization with a start-up culture and essential communication lines
- Competitive working conditions and compensation

We are looking for a permanent team member: we invest in our collaborators and wish to establish a long-term relationship.

### Are you interested?
